Inspired by the Temple of Olympian Zeus in Athens, a colossal temple whose construction began in 6th century BC in order to become the greatest temple in the ancient world.

"Fragments" is a geometric piece of furniture that rejuvenates the structure of a classic column blueprint sketch. Its sculptural abstraction celebrates the continuity of design archetypes that INOMO values. Functions both as stool and as side-table. Ideal for indoor and outdoor use.

Iron A' Design Award Winner (2016 - 2017 Period) in Furniture, Decorative Items and Homeware Design Category.
