

Floating Sunbed

Daybed

View online: inomodesign.com/product/sunbed

A collection of 3 outdoor daybeds with revolutionary design. The daybeds can be installed at home, on the sand or afloat, into the sea securely anchored in shallow water or into the pool.

The collection aims to offer a new, unique, experience to the customer as it is the first floating daybed collection. WAVES Collection brings the comfort and the quality of interior furniture to outdoor use without losing it's original qualities.

As every INOMO product, it is suitable for outside use, even in the most extreme weather conditions since it is made of fiberglass using the hand lay up, handmade, method.

Let the rhythm of the water set your soul free.
